YOUTH ACCESS SURVEY

The purpose of the Youth Access Survey (YAS) is to collect information on what types of drugs your peers are using, messages they see and hear promoting the use of alcohol, tobacco, and other drugs (ATOD), reasons why they are using, and how they are accessing these substances.

A team of students will be trained to explain, administer, and collect the surveys in their peers' classrooms. After analyzing the data the participants create a findings and recommendations report for the community.

The YAS can help fund school and community programs in addressing and preventing ATOD issues. **We would like YOU to get involved and help make a difference in your school!**
